Name: HARSHINI U Roll No: 240701185

UID EXP 8

AIM:

The aim is to create storyboards representing the user flow for a mobile e-commerce application (clothing-based) using Balsamiq.

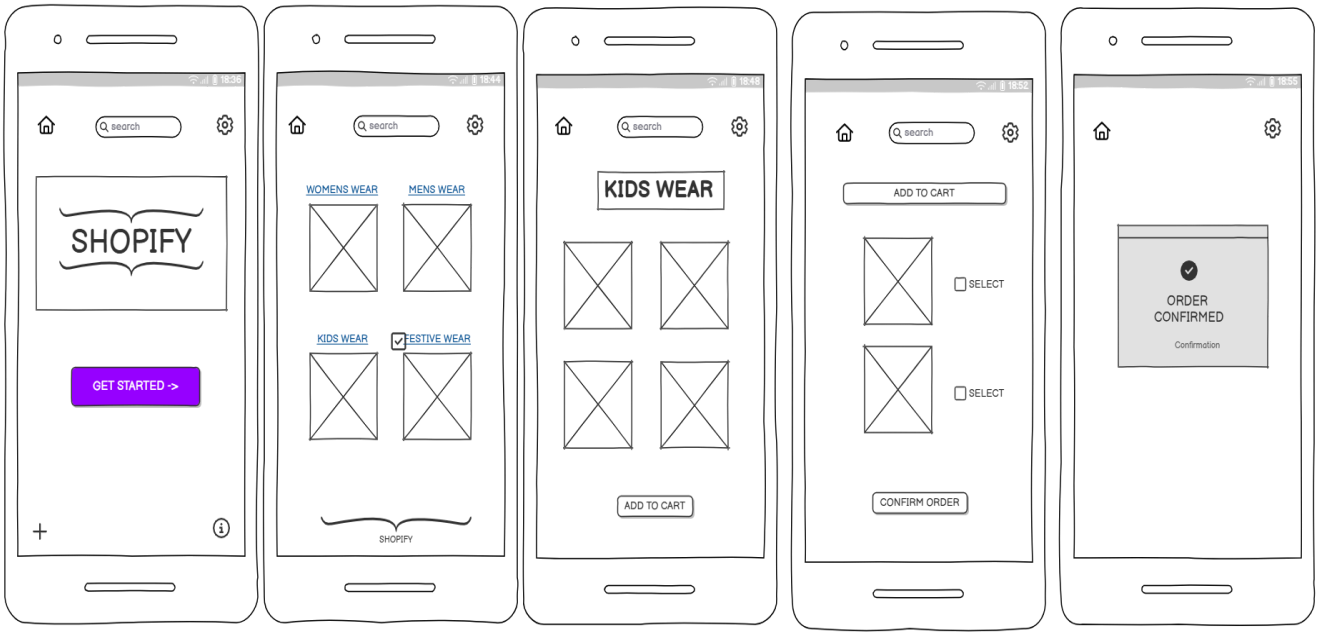
PROCEDURE:

1. Tool Used: Balsamiq Wireframes (https://balsamiq.com)
2. A new project was created and mobile wireframe screens were added to represent the user journey.
3. Each screen was designed to simulate a step in the shopping process, from app entry to order confirmation.
4. UI components such as buttons, search bars, images, and selection options were used from Balsamiq's library.
5. The design focuses on a simple, modern, and user-friendly interface with a clear navigation flow.

USER FLOW:

1. **Welcome Screen** – User opens the app and clicks on "Get Started."
2. **Category Selection Screen** – User selects clothing categories such as Women's Wear, Men's Wear, Kids Wear, or Festive Wear.
3. **Product Display Screen** – User views items under a selected category (e.g., Kids Wear).
4. **Selection & Cart Screen** – User selects products and adds them to the cart.
5. **Order Confirmation Screen** – User confirms the order and receives a success message.

SCREEN-WISE EXPLANATION



1. Welcome Screen

Components:

- Search bar
- App logo (Shopify-style branding)
- “Get Started” button

Purpose:
Acts as the entry point of the application, allowing users to begin their shopping experience.

---

2. Category Selection Screen

Components:

- Search bar
- Category labels:
    - Women’s Wear
    - Men’s Wear
    - Kids Wear
    - Festive Wear

- Image placeholders for categories

Purpose:
Helps users choose the type of clothing they want to explore.

---

3. Product Display Screen (Kids Wear Example)

Components:

- Category title (Kids Wear)
- Grid of product images
- “Add to Cart” button

Purpose:
Displays available products under a selected category for browsing.

---

4. Selection & Cart Screen

Components:

- Product images
- Selection checkboxes
- “Add to Cart” button
- “Confirm Order” button

Purpose:
Allows users to select items and proceed toward placing the order.

---

5. Order Confirmation Screen

Components:

- Confirmation message (“Order Confirmed”)
- Success icon
- Order status text

Purpose:
Final screen that confirms the successful placement of the order.

RESULT:

Successfully created storyboard wireframes representing the user flow of a mobile clothing e-commerce application using Balsamiq. The design clearly illustrates the navigation from app entry to order confirmation.
